Tip or Complaint:

The last two mornings have been dusty and smelly at my residence. The dust is dander and small feathers coming from the Hickman egg farm. The smells vary and seem to change by the minute, and are all bad. I have been experiencing itching of the skin, plugged nose and a slight shortness of breath and coughing. All the results of whatever is coming my way. I am pretty sure in this dusty smelly mix there might be ammonia and other unidentified chemicals. They are killing me slowly. I am making this complaint to the EPA because I do not personally trust my state and local government.
